

## General Information

- **Project Title:** Models and Methods for an Active Ageing Workforce: and International Academy
- **Project Acronym:** MAIA
- **Sponsor/Client:** This project has received funding from the European Union's Horizon 2020 research and innovation programme under *grant agreement No 87307*.
- **Budget:** ca. 150.000 €
- **Duration:** 2020 - 2023
- **Website:** <https://maiaproject.eu/>

## Abstract

MAIA is a 'Research and Innovation Staff Exchange' funded by the Horizon 2020 research and innovation program. It develops an international academy, comprising of 13 academic partners: 7 European universities and 6 Third Countries universities. The academy will focus on active ageing industrial workforce problems and needs. The network is multidisciplinary with leading expertise on ageing and psychosocial aspects, ergonomics, manufacturing system design, robotics/assistance technologies, and economics.

## Key Facts

- MAIA is an international academy
- A multi-disciplinary Research and Innovation Staff Exchange
- 13 partners involved: 7 EU and 6 no-EU universities
- We want to advance the ageing workers involvement in manufacturing

MAIA investigates ageing workforce needs, develops new age-friendly industrial systems and improves the Labor 4.0 paradigm for ageing workers in manufacturing
